HIS HEAD CUT OFF

SAM CORBETT DECAPITATED BY WABASH TRAIN SUNDAY.

ARM SEVERED FROM BODY

Death Came Quickly to Farm Hand Near Bedison, Who Had Fallen on Railroad Track.

Sam Corbett, a young farm hand, aged about 26 years, was killed Saturday afternoon about 3:35 o'clock by a freight train running over him while he was lying on the Wabash railroad track, over a mile east of Bedison.

The young man had been to Maryville Saturday morning and had purchased a suit of clothes and a suit of underwear from the Corwin-Murrin Clothing Co., and a pair of shoes from the Bee Hive shoe store. He returned to Bedison on the noon passenger train Saturday, and it is thought that he got off at Bedison and walked down the track to a place where he would go to Jesse Headrick's farm, where he was employed. Headrick had paid him off on Friday night, his wages amounting to $26.

It is thought that Corbett, on walking down the railroad track, slipped and fell, his head hitting the rail, knocking him unconscious. It is not known whether the man was intoxicated, but a half pint of whisky was found on him, and his clothes were saturated with the liquor. Corbett was laying diagonally across the track, with his head on one rail and his feet toward the south rail. The undertaker, J. E. Bailey, discovered a gash on the back of the head, and it is his opinion that the man was unconscious from the fall he received.

The engineer of the freight train that ran over Corbett's body said at the coroner's inquest that he did everything possible to stop the train when he discovered that something was on the track. He sounded the whistle several times, but it was too late to stop the train, and no effort was made by the man to move or get up. The train was stopped after the engine and two cars and a half had passed over the body.

Corbett's head was severed and his left arm almost cut off. His left foot was also mashed. He was dead by the time the train stopped and the railroad crew went to him. The remains were placed in an empty box car and brought to Maryville, on their way to Omaha.

People of the Bedison neighborhood who knew Corbett say that he was a good, hard working man and that he was not a drinking man. He had worked for E. R. Roof, who lives one mile east of Conception Junction, and also for the Chicago Great Western and the Wabash. His only bad habit, according to Mr. Roof, was smoking cigarettes.

On his person was found several memorandum books and his pocketbook. In the book was written: "In case of accident, wire my brother, H. L. Corbett of Crawford, Nez." Also in this book he kept acount of his time while working, and an entry was made on November 15 that Jesse Headrick had paid him $26.50 for work to that day.

Word was sent to H. L. Corbett at once, but no answer has been received at noon today.

A coroner's inquest was held by Coroner J. H. Todd, and the statements of the train crew given as to the accident. The verdict of the coroner's jury was as follows:

"We, the jury, after viewing and examining the unknown body and hearing the evidence, find, to our best belief, that he came to his death by freight No. 67, engine No. 2152, Wabash railroad, running over him. The evidence shows that the train men used all diligence in their power to stop the train, and no blame is attached to the train crew."

The jury was composed of E. L. Andrews, John Mutz, J. D. Frank, J. H. Tarpley, Frank Ewing and Arch Frank.

The body will be held a few days at the undertaking rooms of the Maryville Furniture company or until word is received from the brother of the deceased in Nebraska.

FOR SINGLE TERM LAW NOW?

Congress in Coming Session May Take Up Presidential Limitation.

Washington, Nov. 17.—President Taft's declaration in favor of a constitutional amendment to limit the presidential tenure of office to a single term of six years, with ineligibility to either a succeeding or non-consecutive term, and President-elect Wilson's indorsement of the Democratic platform favoring such a limitation are believed here to foreshadow strong pressure for legislation along this line early in the coming congress.

Numerous measures have been introduced in both houses in congress looking to the change in the presidential tenure. The judiciary committee wrestled with the problem last session and Senator Cummins, who reported the Works amendment out of committee, intends to press the measure when congress convenes.

A similar measure is hanging fire in the house judiciary committee.

Young Man Who Was Brought Here Last Week Taken Back, as He Was Unsafe to Keep.

Charles Coombs, who was brought back to the home of his father, George Coombs, Saturday, from the asylum at St. Joseph, was taken back to that institution Monday morning by Sheriff Tilson and Bob Yeaman. It was thought that Coombs could be kept at the home by keeping him in a steel cage, but on Sunday he tore up everything he could get his hands on and also commenced work on freeing himself from the cage. So word was sent at once for Sheriff Tilson, who went out to the Coombs place, near Clearmont, and brought him to Maryville.

FIVE WERE ADDED

CHRISTIAN CHURCH ACCESSIONS AT MORNING SERVICE.

ON "CHRISTIAN LIVING"

Nearness to Christ and Obedience to His Commandments Groundwork of Morning Sermon.

The revival meeting at the Christian church commenced Sunday, and Rev. Walter E. Harman preached two fine sermons to large audiences. There were five accessions at the morning service.

The morning sermon was a powerful appeal for "Christian Living," and the evening a sound persuasive appeal to the man out of Christ. In the morning sermon his Scripture lesson was read from John 15;1-3. Text, John 15;7. The theme was "A Gracious Promise and Its Conditions." Rev. Harman said in part at the morning service:

"It was in the closing hours of Christ's earthly life that He made this gracious promise to his disciples. But this promise, like all others, is conditioned. Hear it: 'If you abide in me, and my words abide in you, ask whatsoever you will and it shall be done unto you.' Here we see the conditions of this promise are two in number: 'If you abide in me' and 'my words abide in you.'

"'To abide in Christ,' what does that mean? It means to 'abide in His love.' But to abide in His love means 'to keep his commandments.' 'And this is my commandments, that ye love one another even as I have loved you.' And furthermore, 'His commandments are not grievous.'

"Again, we may say that to abide in Christ means to have a vital relationship with Him. This relationship between the disciple and his Lord is organic and not mechanical. It is like that of the arm and forearm. To sever the connection means death to the member.

"The second condition of this promise, 'and my words abide in you,' will be a natural sequence of our abiding in Christ. It is but natural and entirely to be expected that the thoughts, actions and words of the parent should abide in the child. So with the disciple and his Lord there is to be, and necessarily must be, a unity of common life, of purpose and of resources for attaining the same. Just here it is well for us to remember that Christ 'spake as never man spake,' 'as one that had authority,' and that Paul says we should let the 'words of Christ dwell in us richly.'

"When we have met these requirements we can then claim the gracious promise. 'Ask whatsoever ye will and it shall be done unto you.' How gracious this promise is! Fruit bearing, the thing for which we long and most need! Yes, fruit alone can justify the expense God has put upon the world. 'Our desires will be in harmony with our best interests. This promise points to the fullest fruition in the development of Christian life. What light is to the eye, sound to the ear, water to the fish's fin, this promise is to the soul of man."

Organized a Journal Club.

Ira Richardson, director of the department of education of the Normal, has organized a Journal club at that school. The club holds regular monthly meetings for the purpose of discussing articles in relation to educational topics that appear in the different educational journals, magazines and periodicals.

The membership consists of all those pupils of the school who are doing work in the advanced courses in education.

Mrs. George Kivett and Miss Neva Kivett of Hopkins were among the business visitors in Maryville Saturday.

WHY USE TITLE "PROFESSOR."

One Educator Thinks It is Much Better to Use the Good Old American Mr.

Frank H. Shepherd, head of the manual training department of the Normal, in writing for the Normal paper, The Pragmatist, of which he is editor, thinks that the title "professor" should not be used, and that it should be dropped. He writes as follows:

In one of our exchanges we notice that "professor" holds the most important part, the very center of the brightest spot of the light, and at the same time we notice that the female members of that same faculty are simply "miss." By what right divine do the male members of a faculty acquire this title to the exclusion of the female members?

We have in mind a well known college where, with the exception of the president of the institution, a woman member of the faculty receives a higher salary than any other member of that faculty. She has by long and careful study and persistent effort gained the right to attach more letters, indicating degrees gained, to her name than any member of that faculty. She, by her work as an educator, has been heard of in far distant lands. She is spoken of as "miss," while a member of the faculty, of the masculine gender, who is doing very ordinary work of high school grade is proclaimed in black faced type to the world as "professor." Why is this thus? Let us drop the "professor" from our vocabulary and try the good old American Mr. and Miss.

One of the boys has paid $150 to Mr. Griffen for part of the damages while Impey has been in jail for the past three months awaiting trial.

While the case was on, it was brought out that Impey had been in the federal penitentiary for deserting the army. He was only 17 when he joined the army, but he got into some trouble with a guard at the prison and was sent back.

TELEPHONE MEETING HELD.

To Discuss Plans For Incorporating the Farmers' Telephone Company of This City.

A meeting was held Saturday in the county court room, being attended by representatives from nearly all of the Farmers' phone lines out of Maryville. It was decided to appoint a committee composed of H W. Hull, Sam Mozingo and W. O. Garrett to investigate into the proposition of incorporation and to look into the legal status, the financial condition and also the service. This committee will report at a meeting to be held on December 7.

Many of the subscribers of the Farmers' company think that by incorporating and having all of these 50 party lines under one company that much better service can be given. Then when a farmer or business house wants a phone it wont be necessary to buy the phone and pay dues quarterly, as it is now, but that they can rent a phone at $1 a month.

The directors of the Farmers' phone are wanting to give better service and the opinion is that the only way to do so would be to have one company.

Garrett Told His Troubles on Witness Stand Monday—Much Interest Manifested.

Indications this afternoon were that the Glover-Garrett case would come to a close this evening and that the case would be argued Tuesday. Many witnesses are yet to be examined by the defendant's attorneys, but it is thought that this can be done in a few hours.

D. T. Garrett, the defendant in the case, was on the stand most of the time Monday morning. He told how his enemies at the Junction were trying to ruin him, and after the stories had been circulated on him they made a run on his bank, the Northwestern, of which he was president. Over $14,000 was drawn out in one day. Mr. Garrett, after that sold, his interest in the bank to E. C. Wolfers of Hopkins.

Another witness this afternoon was Miss Charlotte Keenan, a daughter of Mrs. Glover. She told about the home life, and said that Glover was very abusive to his wife and also Mrs. Glover's children.

Quite an interest is taken in the case by people from Burlington Junction and also from this city. Nearly all of the business men of the Junction are here as witnesses. The court room is crowded.

Working Hilly Land.

We have advised farmers before, and do again, to put their hilly land in grass, timothy or blue grass, and raise stock on it. Put out orchards and cultivate the land that is level or slightly indulating and fertilize it every few years.

A common fertilizer is to sow red clover, which also makes excellent feed, and cowpeas to feed hogs. Where this plain is followed, the farmers have raised larger crops the last few years than formerly, even though their land is longer under cultivation.—Farm and Home.

On Sunday morning Mrs. Bennett's daughter, Mrs. Elizabeth French, went to Bolckow to be present at a birthday dinner given in honor of her son, Bennett, to celebrate his tenth birthday anniversary. The dinner was given by Mr. and Mrs. William Patterson at their home. The guests included Bennett French and his friend, Edwin Pettigrew; Mrs. Elizabeth French, Mrs. Mary Bennett, Mrs. Mary Thompson of Idaho, who is visiting her son, W. E. West of Bolckow, and Mrs. Ellis Carey.

Entertained Berean Class.

The Berean class of the M. E. church, South, Sunday school was entertained Friday night by Mr. and Mrs. W. W. Andrews, living southwest of Maryville, with a taffy pulling. The crowd met at the Carnegie library at 7:30 in the evening and rode to the home of Mr. and Mrs. Andrews on hay racks, and were chaperoned by Rev. and Mrs. J. D. Randolph. Games were played and several piano selections were given by Miss Ethel Cook and Miss Alpha Hinkle, before the fun of candy making began. As the crowd returned home they made the welkin ring with two songs, "Ninety-Nine Bottles Hanging on the Wall" and "We're Here Because We're Here," and giving the class yell. Those in the party were Rev. and Mrs. Randolph, Misses Nina Evans, Luna Wells, Alice Chappell, Daisy Boyce, Alpha Hinkle, Ethel Cook, Bessie DeVore, Zenebee Wright-man, Mabel and Francis Andrews, Messrs. Will Burr, Paul H. Caudle, Bruce Clymens, Edgar Hull, E. J. Cunningham, Ellis Chappell, Felix Meeker, Fred Kaufman and the host and hostess.

STOMACH SOUR? GOT INDIGESTION ALSO?

"Pape's Diapepsin" Makes Upset Stomachs Feel Fine in Five Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each does contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxitives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.—Advertisement.

Birthday Anniversary.

Mrs. Harry Harrison entertained a company of the little girl friends of her daughter, Catherine, Saturday afternoon from 2 to 4 o'clock, in celebration of her eighth birthday anniversary. Mrs. Harrison was assisted in entertaining her guests by her sisters, Miss Eva and Fay Sprecher. The house was decorated in red and white, and the dining room was lighted by red candles in silver candlesticks. A beautiful large white birthday cake graced the center of the table and was lighted by red candles. After playing various games and engaging in an exciting hunt for wild animals, a three-course luncheon was served in red and white. The prize, a white celluloid fan, was won by Celia Martin. The guests were Justine Fraser, Martha and Grace Dietz, Mabel Fraser, Grace Foster, Bernice Alcott, Audrey and Alma Williams, Cathryn and Celia Martin, Marguerite and Frances Bluel and Mildred Wallace.

Entertained Neighbors Club.

The Social Neighbors club met with Mr. and Mrs. Gaylard at their home on Friday evening and were entertained by them in a very pleasing manner. The meeting was called to order by the vice president, Mr. Reynolds and roll call responded to. After the business session oysters and pickles were served. The remainder of the evening was spent in music and social chat. Several selections were given on the violin by Messrs. Lester Ringgold and James Neal, with Mrs. Ringgold at the organ. Also by Mr. and Mrs. Latimer on the harp and organ. Those present beside the host, hostess and family were Mr. and Mrs. Callie Clouse, Mr. and Mrs. Tillie Hornbuckle and daughter Mr. and Mrs. James Neal, Mr. and Mrs. Newton Legrand, Mr. and Mrs. Ed Zwilling and family, Mr. and Mrs. Harley Sowers, Mr. and Mrs. Tom Latimer, Mr. and Mrs. Lester Ringgold and son and Mr. and Mrs. Eilet Trueblood and family. The next meeting of the club will be on the evening of December 20th with Mr. and Mrs. Lester Ringgold.

TWO SMALL REBEL TOWNS DESTROYED

Mexican Government Takes Drastic Means to Suppress Revolution.

INDIANS ARE GIVEN NO WARNING

Immediate Destruction to be Fate of all Known as Active Sympathizers or Allies of Revolutionists.

Mexico City, Nov. 18.—That the Mexican government is determined to carry out the threat recently made to resume the tactics employed so successfully by Gen. Robles in the state of Morelos some months ago, is indicated by the report of the war department announcing the total destruction of several small towns and villages in the northern mountains of Oaxaca, where the revolution has been rampant.

Another evidence of the government's intention to use all energy in restoring peace in the south is the announcement by a high official that 3,000 soldiers now operating in the north, chiefly in Chihuahua, Coahuila and Durango, will be sent against the rebels in the states of Mexico, Puebla, Guerrero and Oaxaca. The government is convinced that the situation in the country is now so nearly in hand that smaller forces will be able to restore normal conditions.

Bombarded Without Warning.

Ixtepeji and Zia, two of the places destroyed, were the strongholds of the Serrano Indians, who have not been subjected by the campaign waged in the vicinity of the state capital after an attempt had been made to capture the city. Convinced that the inhabitants of these towns were completely in accord with the rebels, orders were issued for their destruction. Without even calling on the inhabitants to withdraw, the artillery began its work, ceasing only when the towns had been reduced to a mass of ruins.

The Indians are active in other directions. Official reports say conditions in the states of Morelos and Mexico have improved, but it is known that the rebels hold important hills near Cuernavaca and largely control the rural districts and many of the minor towns in the state of Mexico.

Worse in Guerrero.

The situation in the state of Guerrero has become worse on account of the leadership of John Andrew Almazan, who is said to have a considerable following, and control much territory along the Pacific coast.

Gen. Aguilar, who is supposed to be directing a large part of the rebel forces, is operating in the southern part of the state of Puebla. Encounters are reported daily, but in all of them the government has been victorious, with slight losses. At Huaquechula the federals dislodged the rebels from a strong position, eight rebels being killed and one federal. Numerous haciendas and small towns have been sacked and the crops destroyed.

LITTLE CHANCE FOR GAS USERS

Experts Testify Oklahoma Supply is Diminished While Population Has Increased.

Muskogee, Ok., Nov. 18.—As a result of a controversy between the mayor and officials of Kansas City and the Kansas Natural Gas company, expert testimony was taken here on an order of the United States court.

D. C. Morrison, government oil and gas inspector of Oklahoma; W. M. Baker and others connected with the government testified that the gas supply in Oklahoma is greatly exaggerated and that the supply has diminished in the last five years, while the population of Oklahoma has gained 100 per cent. They declared that unless the state takes action to conserve its gas and eliminates the drain caused by piping the gas out of the state, Oklahoma soon will be in the same class as Indiana, Ohio and Kansas—an exhausted gas supply.

The witnesses showed gauges and actual tests made in all the old and new gas fields of the state to substantiate their testimony.

Co-Operate to Get Gas.

Topeka, Nov. 18.—The city attorneys and John Marshall, attorney for the Kansas public utilities commission, will go before Judge J. C. Pollock of the federal court and offer the aid of all the cities now supplied with gas, and that of the state, in getting more gas and more equitable distribution. That was the only conclusion reached at the conference of the attorneys here.

Caught Postoffice Robber.

Fort Smith, Ark., Nov. 18.—After a desperate fight, William Jefferson, 22 years old, was captured by St. Louis & San Francisco railway employes while he was robbing the postoffice at Bengal, Ok. J. W. McGee, postmaster, narrowly escaped death when he was fired upon by Jefferson in the building.

Ex-Mexican Statesman Dead.

Los Angeles, Nov. 18.—Gen. Lorenzo Torres, formerly governor of the Mexican state of Sonora, died at his Los Angeles home. He was 76 years old. Gen. Torres came to Los Angeles six weeks ago to join his children.

Mrs. R. T. Wigzell of Arkoe was in Maryville Saturday.

CHOLERA HELPS DEFEAT TURKS

Constantinople Authorities Powerless to Control Situation.

DEATH RATE IS NOW 50 PER CENT

Three Thousand Patients Reach City in One Day—Great Battle Now on With Bulgarian Forces all Along the Line.

Constantinople, Nov. 18.—There are more than a thousand cases of cholera daily in and around Constantinople and the death rate has reached 50 per cent. The authorities are powerless to cope with the situation.

Three thousand cholera patients have arrived by train at San Stefano. They would have been brought here but for the protest of the railway company and the Austrian ambassador, who asked that they be sent to the Lazarettos at Becos and Ismidt.

For 24 hours the patients remained in the train on a siding at San Stefano without water, food or medicine.

Sufferers Left Lying in Mud.

A foreign doctor, assisting in the military hospital, discovered by accident that five soldiers dying of cholera had been placed among the wounded. He ordered their removal. Bearers took up the dying men on their shoulders, but their condition was such that he ordered the bearers to drop them. They did and the sufferers were left groaning in the mud for an hour before they were removed on stretchers.

An extraordinary feature of conditions behind the Turkish lines at Tchatalja is the indifference of the army to the presence of unauthorized visitors.

Several foreign officers who visited the lines report the situation hopeless. The troops for the most part are unable to work because cholera-infected soldiers are keeping watch in the earthworks.

Sick Lie in Fields.

Innumerable sick lie groaning in the fields to the rear, some of them in their last agonies. Countless cholera-infected fugitives are struggling back from the outer forts and thousands of patients and hundreds of dead lie on the ground around Hadamkeui.

The great battle between the Bulgarians and Turks is on all along the line of the Tchatalja fortifications. Nazim Pasha, the Turkish commander-in-chief, sends the following dispatch:

"The battle which commenced with an attack by Bulgarian infantry lasted until long after sunset. The enemy was repulsed by our infantry and artillery fire. Three Bulgarian batteries were destroyed."

INDIAN APPRAISERS RESIGNED

Hearing of Charges in Oklahoma Land Cases Comes to Unexpected Conclusion.

Washington, Nov. 18.—An investigation of charges against the three men appointed to appraise the surface of the segregation coal and asphalt lands of the Choctaw and Chickasaw nations in Oklahoma came to a sudden and unexpected end here when official advices were received by telegraph at the interior department that the appraisers had tendered their resignations.

A representative of the office of Walter L. Fisher, secretary of the interior, went to Oklahoma for the purpose of holding public hearings in charges against the three members of the board—Arthur L. Edgington, John J. Boles and Earl A. McGowan. Whether any hearings were actually held is not known here.

It was stated at the interior department that a new board of appraisers would be appointed in the near future.

Couple Wed 50 Years.

Chapman, Kan., Nov. 18.—For 50 years John Erwin and his wife have lived on the same farm in Dickinson county. In that time ten children were born to them. On their golden wedding anniversary to commemorate the occasion, their ten children, with their families and grandchildren, surprised the old couple by meeting at the family homestead. Mr. and Mrs. Erwin were married in 1862.

Killed 10,000 Quail.

Chickasha, Ok., Nov. 18.—On the opening day of the hunting season in Oklahoma it is estimated by W. M. Edwards, deputy state game warden, that 10,000 quail were killed in Grady county alone. The number of men from Chickasha and other towns who spent the day with gun and dog is estimated at 1,000.

Sorority Has $25,000 Home.

Lawrence, Kan., Nov. 18.—One of the finest chapter houses in the West was opened here by the Kappa Kappa Gamma sorority. The building, which is of colonial style, is three stories high and contains 14 rooms. It is built of brick and finished in oak throughout. The cost of the house was $25,000.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair.

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the color of the hair; and Sulphur is recognized by Scalp Specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and notice the improvement in the appearance of your hair after a few days' treatment.

FIFTEEN WANT A POSTOFFICE

PRIMARY MAY DECIDE COLUMBIA CONTEST.

Number of Candidates for Missouri Political Plum Constantly Increasing.

Columbia, Mo., Nov. 18.—A primary by the Democratic voters probably will be held to decide the postmastership here, as there are so many in the race for the job. At present there are about 15 candidates for the position, with new applicants turning up each day. The number is expected to increase to 20 or more by the end of the week.

The postmastership here pays $3,100 a year. It is considered to be one of the best political plums in this part of the state. Now that it is running close, everyone is trying for it.

The last time a Democrat postmaster, R. J. Bonchelle, was appointed the contestants for the best "spoils" position here were so many that a perfential primary election had to be called to "weed out" the many contestants. That appears to be the court of last resort here in Columbia. This time the idea of the primary is supported by most of the candidates. That probably will be done unless no particular candidate for the position is preferred by the congressman from the district.

The men who are expected to be applicants for the position are F. C. Bradford, P. S. Quinn, T. W. Whittle, F. W. Hubbell, Dr. M. D. Lewis, James H. Guitar, E. W. Maxwell, E. W. Crouch, L. T. Searcy, A. S. Prather, J. B. Mundy, editor of the Columbia Statesman, and Ben M. Anderson, ex-state senator.

HUSBAND ASSISTED IN ATTACK

Woman, Victim of Assault by 13 Men Near Annapolis, Mo., Blames Mate.

Poplar Bluff, Mo., Nov. 18.—Mrs. Lillie C. Mullane, who corroborated the allegation made by her husband, Thomas Mullane, that she was attacked and kept prisoner for one day by 13 men near Annapolis, Mo., October 18, has just made a confession in writing to Prosecuting Attorney Almoning, in which she alleged that her husband virtually compelled her to submit to her assailants.

Mullane is in jail here on a charge of disturbing the peace which was brought to hold him as a witness at the trial of the 13 men at Ironton. He denied his wife's written confession and said that agents of the 13 men had induced her to make the confession.

Mrs. Mullane who is 19 years old was married to Mullane December 6, 1911 in Caroline county, Virginia. They lived for a time at Fredericksburg, Va.

IOLA BANDITS HELD BY A. H. T. A.

Posse Holds Motor Raiders for Horse Stealing and Refuse to Give Up Prisoners.

Iola, Kan., Nov. 18.—Members of the Anti-Horse Thief association are holding the two motor raiders they captured in the Thayer jail. The A. H. T. A. posse refused to give the prisoners into the custody of Allen county officers who want them on charges of highway robbery. The charge in Thayer is horsestealing.

The men in jail give their names as Jimmie Wilson and Bert Young and say they are from Kansas City. Wilson was shot through the right hand.

Officers here are certain that the Thayer prisoners are the Van Bibber brothers of Kansas City. Bessie Van Bibber told the officers here that the leader of the gang was W. J. Van Bibber and the man who says he is Bert Young tallies to detail with the description of Bert Van Bibber.

Reward for Kidnaper.

Macon, Nov. 18.—Elijah Mayfield of this city is offering a reward of $100 for the arrest of the persons who were concerned in the abduction of his little daughter from the family home in this city, November 12. Officers who went to Moberly in search of the child returned without her. Cordelia Mayfield, the divorced wife of Mayfield, was driven to Macon in a motor car but cannot now be found.

Jamaica in Storm's Grip.

Kingston, Jamaica, Nov. 18.—The storm which struck a section of Jamaica continued without abatement all day, and meager reports indicate that great damage has been done. Banana planters seem to be the heaviest losers, although railway and telegraph companies also have sustained great losses. Telegraph and railroad communications generally are demoralized.

Another Contest in Kansas.

Iola, Kan., Nov. 18.—R. E. Cullison, Republican nominee for county attorney, defeated at the election by Frank Forrest, Democrat, by 27 votes, announced his decision to file contest proceedings immediately. This contest will affect the gubernatorial race as well as the office of county attorney.

To Electrify D. & R. G.

Denver, Nov. 18.—The electrification of the Denver & Rio Grande system will be begun immediately, according to an announcement by Vice-President E. L. Brown of that system. This will make the Rio Grande the first road through the mountains to be operated electrically.

An Extraordinary Demand Followed the Announcement of This Extraordinary Value

WE predicted an avalanche of orders. We knew the minute this model was offered it would sweep the country. We knew nothing on earth could stop the demand for it. All we had to do was to acquaint the public with the facts. During the last sixty days we have shipped seventy-five hundred of these 1913 cars and still we are way behind our immediate shipping orders. This extraordinary pressure just naturally followed the announcement of this extraordinary value.

¶ Any one article that continues, from year to year, to beat, baffle and dominate, other similar articles, must be the acknowledged leader. This is an established fact in commercial circles. That which is best must lead. The Overland is today the most prominent automobile, of its type, produced.

¶ Automobile values must be looked at from several different angles. You must consider not only the price, *but what that price buys you.* You must take into consideration the power, the strength, the beauty, the construction, the size, the appearance and the equipment of the car. You must judge a car by the material in it; the workmanship on it; the methods employed to produce it; and, last but not least, the facilities behind the production methods. Couple these facts with the price tag and you get the value.

¶ Examine each one of these fundamentals in this Overland at $985 and you find a car that is identical with the average $1,200 car. Go further and you find high-grade construction and painstaking care in finish that equal the production methods employed in the making of any $5,000 car you know of.

¶ This car has the power of a $1,200 car; it has the strength of a $1,200 car; it has the size of a $1,200 car; it has the seating capacity of a $1,200 car; it has the wheel base of a $1,200 car; it has the chassis construction of a $1,200 car; it has the comfort of a $1,200 car; it has the beauty and finish of a $1,200 car.

¶ Take the equipment item alone. It has a Warner speedometer—the best made; it has a fine mohair top and boot; it has a clear vision wind shield; it has a self-starter and a Prestolite tank—every practical accessory made for an automobile. And all for the one price—$985. There are no "extras."

¶ Then there are those important construction features which are only found on the very high-priced cars. This model has a drop-forged I beam section front axle, fitted with the famous Timken bearings; a three-quarter floating rear axle fitted with Hyatt bearings; a selective transmission, with three speeds forward and reverse, fitted with annular bearings, and a cold rolled pressed steel frame. It has the center control. The brakes are unusually large for a car of this size and power, and are ample for cars of much greater weight. There are two sets of the drum type, internal expanding and external contracting. The extra large braking surface is indicated by their dimensions 13 inches by 2¼ inches. The springs are semi-elliptic front, three-quarter elliptic rear. Each spring has six leaves. Tires are 32x3½ Q. D.

¶ This model is superbly finished. The striking body is in dark Overland Blue. Battleship gray wheels harmonize perfectly with the rich dark body which is trimmed in black and nickel plate.

¶ We want to put it up to you squarely. We want to submit to your own judgment the following simple inquiry: Why pay more than our price, for a car of this size, strength and power? When cars that are selling for $1,200 give you no more practical value; give you no more power; no more comfort; no more ease; no more strength; no better looking car, why in the name of reason and economy should you pay the additional money?

¶ There are over 2,000 Overland dealers. Look up the one in your town and see this Model 69 at once.

¶ Step lively for an early delivery.

¶ Catalogue on request.

Negroes Hold a Fair.

A fair and farmers' institute, managed and conducted entirely by negroes was recently held at Bunceton, in Cooper county. This was the second meeting of the kind held by the association, and, like the first, was a decided success. The entries of farm and garden products and kitchen and pantry stores would have done credit to an ordinary county fair. Believing that the best opportunity for the negroes is in the country, the Missouri state board of agriculture sent to this meeting as a special lecturer and demonstrator, Henry Kirklin, a successful negro gardener from Columbia. The association has elected officers and will hold another fair and farmers' institute next year.

Testing Grain With Testing Kettle.

Inquiries have come to the Missouri state board of agriculture as to the proper method of testing grain with a testing kettle, such as is commonly used at elevators. The rule is as follows: "Place the kettle where it cannot be jarred or shaken. Pour from a scoop, bag or pan, held two inches from the top of the kettle, into the middle of the kettle at a moderate speed until running over. Strike off in a zigzag manner with the edge of the beam held horizontally."

HIS HEAD CUT OFF

SAM CORBETT DECAPITATED BY WABASH TRAIN SUNDAY.

ARM SEVERED FROM BODY

Death Came Quickly to Farm Hand Near Bedison, Who Had Fallen on Railroad Track.

Sam Corbett, a young farm hand, aged about 26 years, was killed Saturday afternoon about 3:35 o'clock by a freight train running over him while he was lying on the Wabash railroad track, over a mile east of Bedison.

The young man had been to Maryville Saturday morning and had purchased a suit of clothes and a suit of underwear from the Corwin-Murrin Clothing Co., and a pair of shoes from the Bee Hive shoe store. He returned to Bedison on the noon passenger train Saturday, and it is thought that he got off at Bedison and walked down the track to a place where he would go to Jesse Headrick's farm, where he was employed. Headrick had paid him off on Friday night, his wages amounting to $26.

It is thought that Corbett, on walking down the railroad track, slipped and fell, his head hitting the rail, knocking him unconscious. It is not known whether the man was intoxicated, but a half pint of whisky was found on him, and his clothes were saturated with the liquor. Corbett was laying diagonally across the track, with his head on one rail and his feet toward the south rail. The undertaker, J. E. Bailey, discovered a gash on the back of the head, and it is his opinion that the man was unconscious from the fall he received.

The engineer of the freight train that ran over Corbett's body said at the coroner's inquest that he did everything possible to stop the train when he discovered that something was on the track. He sounded the whistle several times, but it was too late to stop the train, and no effort was made by the man to move or get up. The train was stopped after the engine and two cars and a half had passed over the body.

Corbett's head was severed and his left arm almost cut off. His left foot was also mashed. He was dead by the time the train stopped and the railroad crew went to him. The remains were placed in an empty box car and brought to Maryville, on their way to Omaha.

People of the Bedison neighborhood who knew Corbett say that he was a good, hard working man and that he was not a drinking man. He had worked for E. R. Roof, who lives one mile east of Conception Junction, and also for the Chicago Great Western and the Wabash. His only bad habit, according to Mr. Roof, was smoking cigarettes.

On his person was found several memorandum books and his pocketbook. In the book was written: "In case of accident, wire my brother, H. L. Corbett of Crawford, Nez." Also in this book he kept acount of his time while working, and an entry was made on November 15 that Jesse Headrick had paid him $26.50 for work to that day.

Word was sent to H. L. Corbett at once, but no answer has been received at noon today.

A coroner's inquest was held by Coroner J. H. Todd, and the statements of the train crew given as to the accident. The verdict of the coroner's jury was as follows:

"We, the jury, after viewing and examining the unknown body and hearing the evidence, find, to our best belief, that he came to his death by freight No. 67, engine No. 2152, Wabash railroad, running over him. The evidence shows that the train men used all diligence in their power to stop the train, and no blame is attached to the train crew."

The jury was composed of E. L. Andrews, John Mutz, J. D. Frank, J. H. Tarpley, Frank Ewing and Arch Frank.

The body will be held a few days at the undertaking rooms of the Maryville Furniture company or until word is received from the brother of the deceased in Nebraska.

FOR SINGLE TERM LAW NOW?

Congress in Coming Session May Take Up Presidential Limitation.

Washington, Nov. 17.—President Taft's declaration in favor of a constitutional amendment to limit the presidential tenure of office to a single term of six years, with ineligibility to either a succeeding or non-consecutive term, and President-elect Wilson's indorsement of the Democratic platform favoring such a limitation are believed here to foreshadow strong pressure for legislation along this line early in the coming congress.

Numerous measures have been introduced in both houses in congress looking to the change in the presidential tenure. The judiciary committee wrestled with the problem last session and Senator Cummins, who reported the Works amendment out of committee, intends to press the measure when congress convenes.

A similar measure is hanging fire in the house judiciary committee.

Charles Coombs, who was brought back to the home of his father, George Coombs, Saturday, from the asylum at St. Joseph, was taken back to that institution Monday morning by Sheriff Tilson and Bob Yeaman. It was thought that Coombs could be kept at the home by keeping him in a steel cage, but on Sunday he tore up everything he could get his hands on and also commenced work on freeing himself from the cage. So word was sent at once for Sheriff Tilson, who went out to the Coombs place, near Clearmont, and brought him to Maryville.

FIVE WERE ADDED

CHRISTIAN CHURCH ACCESSIONS AT MORNING SERVICE.

ON "CHRISTIAN LIVING"

Nearness to Christ and Obedience to His Commandments Groundwork of Morning Sermon.

The revival meeting at the Christian church commenced Sunday, and Rev. Walter E. Harman preached two fine sermons to large audiences. There were five accessions at the morning service.

The morning sermon was a powerful appeal for "Christian Living," and the evening a sound persuasive appeal to the man out of Christ. In the morning sermon his Scripture lesson was read from John 15;1-3. Text, John 15;7. The theme was "A Gracious Promise and Its Conditions." Rev. Harman said in part at the morning service:

"It was in the closing hours of Christ's earthly life that He made this gracious promise to his disciples. But this promise, like all others, is conditioned. Hear it: 'If you abide in me, and my words abide in you, ask whatsoever you will and it shall be done unto you.' Here we see the conditions of this promise are two in number: 'If you abide in me' and 'my words abide in you.'

"'To abide in Christ,' what does that mean? It means to 'abide in His love.' But to abide in His love means 'to keep his commandments.' 'And this is my commandments, that ye love one another even as I have loved you.' And furthermore, 'His commandments are not grievous.'

"Again, we may say that to abide in Christ means to have a vital relationship with Him. This relationship between the disciple and his Lord is organic and not mechanical. It is like that of the arm and forearm. To sever the connection means death to the member.

"The second condition of this promise, 'and my words abide in you,' will be a natural sequence of our abiding in Christ. It is but natural and entirely to be expected that the thoughts, actions and words of the parent should abide in the child. So with the disciple and his Lord there is to be, and necessarily must be, a unity of common life, of purpose and of resources for attaining the same. Just here it is well for us to remember that Christ 'spake as never man spake,' 'as one that had authority,' and that Paul says we should let the 'words of Christ dwell in us richly.'

"When we have met these requirements we can then claim the gracious promise. 'Ask whatsoever ye will and it shall be done unto you.' How gracious this promise is! Fruit bearing, the thing for which we long and most need! Yes, fruit alone can justify the expense God has put upon the world.

"Our desires will be in harmony with our best interests. This promise points to the fullest fruition in the development of Christian life. What light is to the eye, sound to the ear, water to the fish's fin, this promise is to the soul of man."

Organized a Journal Club.

Ira Richardson, director of the department of education of the Normal, has organized a Journal club at that school. The club holds regular monthly meetings for the purpose of discussing articles in relation to educational topics that appear in the different educational journals, magazines and periodicals.

The membership consists of all those pupils of the school who are doing work in the advanced courses in education.

Mrs. George Kivett and Miss Neva Kivett of Hopkins were among the business visitors in Maryville Saturday.

WHY USE TITLE "PROFESSOR."

One Educator Thinks It is Much Better to Use the Good Old American Mr.

Frank H. Shepherd, head of the manual training department of the Normal, in writing for the Normal paper, The Pragmatist, of which he is editor, thinks that the title "professor" should not be used, and that it should be dropped. He writes as follows:

In one of our exchanges we notice that "professor" holds the most important part, the very center of the brightest spot of the light, and at the same time we notice that the female members of that same faculty are simply "miss." By what right divine do the male members of a faculty acquire this title to the exclusion of the female members?

We have in mind a well known college where, with the exception of the president of the institution, a woman member of the faculty receives a higher salary than any other member of that faculty. She has by long and careful study and persistent effort gained the right to attach more letters, indicating degrees gained, to her name than any member of that faculty. She, by her work as an educator, has been heard of in far distant lands. She is spoken of as "miss," while a member of the faculty, of the masculine gender, who is doing very ordinary work of high school grade is proclaimed in black faced type to the world as "professor." Why is this thus? Let us drop the "professor" from our vocabulary and try the good old American Mr. and Miss.

J. E. Skidmore Fined $25 for Disturbing Peace—Ladensohn Withdrew Plea of Guilty.

John Impey and Leonard Buckmiller pleaded guilty in circuit court Monday morning to taking John Griffen's Auburn automobile during the Hopkins picnic and were fined $50 each. The automobile was taken out during the night and was found the next morning about a mile from the Griffen's home, about $200 worth of damages being done to the machine. One of the boys has paid $150 to Mr. Griffen for part of the damages while Impey has been in jail for the past three months awaiting trial.

While the case was on, it was brought out that Impey had been in the federal penitentiary for deserting the army. He was only 17 when he joined the army, but he got into some trouble with a guard at the prison and was sent back.

J. E. Skidmore of Guilford appeared in court Monday afternoon and pleaded guilty to disturbing the peace of Carl Wray, at that town, the first part of this month. He was fined $25 and costs by the court, and paid the fine and costs.

TELEPHONE MEETING HELD.

To Discuss Plans For Incorporating the Farmers' Telephone Company of This City.

A meeting was held Saturday in the unty court room, being attended by presentatives from nearly all of the Farmers' phone lines out of Maryville. It was decided to appoint a committee composed of H W. Hull, m Mozingo and W. O. Garrett to investigate into the proposition of incorporation and to look into the legal atus, the financial condition and also the service. This committee will eport at a meeting to be held on cember 7.

Many of the subscribers of the rmers' company think that by incorporating and having all of these 50 arty lines under one company that much better service can be given. Then when a farmer or business house wants a phone it wont be necessary to buy the phone and pay dues quarterly, as it is now, but that they can rent a phone at $1 a month.

The directors of the Farmers' phone are wanting to give better service and the opinion is that the only way to do so would be to have one company.

Garrett Told His Troubles on Witness Stand Monday—Much Interest Manifested.

Indications this afternoon were that the Glover-Garrett case would come to a close this evening and that the case would be argued Tuesday. Many witnesses are yet to be examined by the defendant's attorneys, but it is thought that this can be done in a few hours.

D. T. Garrett, the defendant in the case, was on the stand most of the time Monday morning. He told how his enemies at the Junction were trying to ruin him, and after the stories had been circulated on him they made a run on his bank, the Northwestern, of which he was president. Over $14,000 was drawn out in one day. Mr. Garrett, after that sold, his interest in the bank to E. C. Wolfers of Hopkins.

Another witness this afternoon was Miss Charlotte Keenan, a daughter of Mrs. Glover. She told about the home life, and said that Glover was very abusive to his wife and also Mrs. Glover's children.

Quite an interest is taken in the case by people from Burlington Junction and also from this city. Nearly all of the business men of the Junction are here as witnesses. The court room is crowded.

DIED IN OKLAHOMA.

L. A. Messecar Died Saturday and Body Brought to Hopkins Monday —Funeral Tuesday Morning.

L. M. Messecar, the father of Mrs. Walter Morehouse of Hopkins, died at his home in Oklahoma Saturday. His body was brought to Hopkins Monday noon for burial, Mr. Morehouse going to St. Joseph Monday morning to accompany the remains to his home, three miles east of Hopkins.

The funeral services will be held Tuesday morning at 10 o'clock at the Morehouse home. Mr. Messecar was an old resident of the Hopkins vicinity. He left Hopkins twelve years ago and has made his home there since.

Here From Idaho.

Mr. J. R. Conway of Twin Falls, Idaho, arrived in Maryville Saturday night and a brief visit to his mother, Mrs. Richard Conway, living west of the city. Mr. Conway is on his way to Chicago with an exhibit of apples from Twin Falls, raised from his 60-acre orchard that nearly joins the town. Twin Falls shipped fifty car loads to Chicago this year. Mr. Conway is taking 800 boxes of apples from his orchard to Chicago, in which his brother, Hubert Conway of this city, is part owner. Mr. Conway is a live member of the commercial club at Twin Falls, also a director of the Fruit Growers' association. He feels pardonable pride in his home city, which was only laid out eight years ago, and he built the second residence that was erected. Twin Falls is now a city of 10,000 inhabitants. Mr. Conway stopped in Kansas City on his way to Maryville to visit his cousin, Judge James M. Johnson of the Kansas City court of appeals.

Mrs. Mayme Thompson and daughter went to Ravenwood Saturday to visit over Sunday with home folks. Mrs. Thompson is a State Normal student and she and her little girl make their home with Mr. and Mrs. W. S. Miller.

Miss Nell Wray will go to Kansas City Tuesday morning as a delegate to the state Sunday school convention. She will represent the Sunday school of the First M. E. church.

M. L. Stephens and his mother, Mrs. I. P. Stephens, of Atchison, Kan., were in Maryville Saturday on their way to Nashnabotna, Mo., on business.

Miss Magdalene Massing returned to her home in Conception Saturday from a visit with her sister, Sister Crecentia of St. Francis hospital.

Misses Esther and Lois Smith of Stanberry were in Maryville Monday going to St. Joseph to spend the day.

Michael McDonald of St. Joseph is visiting his daughter, Mrs. Henry Carroll, and family.

Working Hilly Land.

We have advised farmers before, and do again, to put their hilly land in grass, timothy or blue grass, and raise stock on it. Put out orchards and cultivate the land that is level or slightly indulating and fertilize it every few years.

A common fertilizer is to sow red clover, which also makes excellent feed, and cowpeas to feed hogs. Where this plain is followed, the farmers have raised larger crops the last few years than formerly, even though their land is longer under cultivation.—Farm and Home.

Miss Ruth Westfall spent Sunday near Barnard with her parents, Mr. and Mrs. R. F. Westfall.

Mrs. Mary Hansen went to St. Joseph Saturday evening to visit her daughter, Mrs. Charles P. Heekin.

STOMACH SOUR? GOT INDIGESTION ALSO?

"Pape's Diapepsin" Makes Upset Stomachs Feel Fine in Five Minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each does contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxitives or liver pills for billousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.—Advertisement.

TWO SMALL REBEL TOWNS DESTROYED

Mexican Government Takes Drastic Means to Suppress Revolution.

INDIANS ARE GIVEN NO WARNING

Immediate Destruction to be Fate of all Known as Active Sympathizers or Allies of Revolutionists.

Mexico City, Nov. 18.—That the Mexican government is determined to carry out the threat recently made to resume the tactics employed so successfully by Gen. Robles in the state of Morelos some months ago, is indicated by the report of the war department announcing the total destruction of several small towns and villages in the northern mountains of Oaxaca, where the revolution has been rampant.

Another evidence of the government's intention to use all energy in restoring peace in the south is the announcement by a high official that 3,000 soldiers now operating in the north, chiefly in Chihuahua, Coahuila and Durango, will be sent against the rebels in the states of Mexico, Puebla, Guerrero and Oaxaca. The government is convinced that the situation in the country is now so nearly in hand that smaller forces will be able to restore normal conditions.

Bombarded Without Warning.

Ixtepeji and Zia, two of the places destroyed, were the strongholds of the Serrano Indians, who have not been subjected by the campaign waged in the vicinity of the state capital after an attempt had been made to capture the city. Convinced that the inhabitants of these towns were completely in accord with the rebels, orders were issued for their destruction. Without even calling on the inhabitants to withdraw, the artillery began its work, ceasing only when the towns had been reduced to a mass of ruins.

The Indians are active in other directions. Official reports say conditions in the states of Morelos and Mexico have improved, but it is known that the rebels hold important hills near Cuernavaca and largely control the rural districts and many of the minor towns in the state of Mexico.

Worse in Guerrero.

The situation in the state of Guerrero has become worse on account of the leadership of John Andrew Almazan, who is said to have a considerable following, and control much territory along the Pacific coast.

Gen. Aguilar, who is supposed to be directing a large part of the rebel forces, is operating in the southern part of the state of Puebla. Encounters are reported daily, but in all of them the government has been victorious, with slight losses. At Huaquecheula the federals dislodged the rebels from a strong position, eight rebels being killed and one federal. Numerous haciendas and small towns have been sacked and the crops destroyed.

LITTLE CHANCE FOR GAS USERS

Experts Testify Oklahoma Supply is Diminished While Population Has Increased.

Muskogee, Ok., Nov. 18.—As a result of a controversy between the mayor and officials of Kansas City and the Kansas Natural Gas company, expert testimony was taken here on an order of the United States court.

D. C. Morrison, government oil and gas inspector of Oklahoma; W. M. Baker and others connected with the government testified that the gas supply in Oklahoma is greatly exaggerated and that the supply has diminished in the last five years, while the population of Oklahoma has gained 100 per cent. They declared that unless the state takes action to conserve its gas and eliminates the drain caused by piping the gas out of the state, Oklahoma soon will be in the same class as Indiana, Ohio and Kansas—an exhausted gas supply.

The witnesses showed gauges and actual tests made in all the old and new gas fields of the state to substantiate their testimony.

Co-Operate to Get Gas.

Topeka, Nov. 18.—The city attorneys and John Marshall, attorney for the Kansas public utilities commission, will go before Judge J. C. Pollock of the federal court and offer the aid of all the cities now supplied with gas, and that of the state, in getting more gas and more equitable distribution. That was the only conclusion reached at the conference of the attorneys here.

Caught Postoffice Robber.

Fort Smith, Ark., Nov. 18.—After a desperate fight, William Jefferson, 22 years old, was captured by St. Louis & San Francisco railway employes while he was robbing the postoffice at Bengal, Ok. J. W. McGee, postmaster, narrowly escaped death when he was fired upon by Jefferson in the building.

CHOLERA HELPS DEFEAT TURKS

Constantinople Authorities Powerless to Control Situation.

DEATH RATE IS NOW 50 PER CENT

Three Thousand Patients Reach City in One Day—Great Battle Now on With Bulgarian Forces all Along the Line.

Constantinople, Nov. 18.—There are more than a thousand cases of cholera daily in and around Constantinople and the death rate has reached 50 per cent. The authorities are powerless to cope with the situation.

Three thousand cholera patients have arrived by train at San Stefano. They would have been brought here but for the protest of the railway company and the Austrian ambassador, who asked that they be sent to the Lazarettos at Recos and Ismidt.

For 24 hours the patients remained in the train on a siding at San Stefano without water, food or medicine.

Sufferers Left Lying in Mud.

A foreign doctor, assisting in the military hospital, discovered by accident that five soldiers dying of cholera had been placed among the wounded. He ordered their removal. Bearers took up the dying men on their shoulders, but their condition was such that he ordered the bearers to drop them. They did and the sufferers were left groaning in the mud for an hour before they were removed on stretchers.

An extraordinary feature of conditions behind the Turkish lines at Tchatalja is the indifference of the army to the presence of unauthorized visitors.

Several foreign officers who visited the lines report the situation hopeless. The troops for the most part are unable to work because cholera-infected soldiers are keeping watch in the earthworks.

Sick Lie in Fields.

Innumerable sick lie groaning in the fields to the rear, some of them in their last agonies. Countless cholera-infected fugitives are struggling back from the outer forts and thousands of patients and hundreds of dead lie on the ground around Hadamkeui.

The great battle between the Bulgarians and Turks is on all along the line of the Tchatalja fortifications. Nazim Pasha, the Turkish commander-in-chief, sends the following dispatch:

"The battle which commenced with an attack by Bulgarian infantry lasted until long after sunset. The enemy was repulsed by our infantry and artillery fire. Three Bulgarian batteries were destroyed."

INDIAN APPRAISERS RESIGNED

Hearing of Charges in Oklahoma Land Cases Comes to Unexpected Conclusion.

Washington, Nov. 18.—An investigation of charges against the three men appointed to appraise the surface of the segregation coal and asphalt lands of the Choctaw and Chickasaw nations in Oklahoma came to a sudden and unexpected end here when official advices were received by telegraph at the interior department that the appraisers had tendered their resignations.

A representative of the office of Walter L. Fisher, secretary of the interior, went to Oklahoma for the purpose of holding public hearings in charges against the three members of the board—Arthur L. Edgington, John J. Boles and Earl A. McGowan. Whether any hearings were actually held is not known here.

It was stated at the interior department that a new board of appraisers would be appointed in the near future.

Couple Wed 50 Years.

Chapman, Kan., Nov. 18.—For 50 years John Erwin and his wife have lived on the same farm in Dickinson county. In that time ten children were born to them. On their golden wedding anniversary to commemorate the occasion, their ten children, with their families and grandchildren, surprised the old couple by meeting at the family homestead. Mr. and Mrs. Erwin were married in 1862.

Killed 10,000 Quail.

Chickasha, Ok., Nov. 18.—On the opening day of the hunting season in Oklahoma it is estimated by W. M. Edwards, deputy state game warden, that 10,000 quail were killed in Grady county alone. The number of men from Chickasha and other towns who spent the day with gun and dog is estimated at 1,000.

Sorority Has $25,000 Home.

Lawrence, Kan., Nov. 18.—One of the finest chapter houses in the West was opened here by the Kappa Kappa Gamma sorority. The building, which is of colonial style, is three stories high and contains 14 rooms. It is built of brick and finished in oak throughout. The cost of the house was $25,000.

BEAUTIFUL HAIR AT SMALL COST

A Simple Remedy Beautifies the Hair, Cures Dandruff, Stops Falling Hair.

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with excessive oil.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyeth's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the color of the hair; and Sulphur is recognized by Scalp Specialists as being excellent for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, and notice the improvement in the appearance of your hair after a few days' treatment.

FIFTEEN WANT A POSTOFFICE

PRIMARY MAY DECIDE COLUMBIA CONTEST.

Number of Candidates for Missouri Political Plum Consfantly Increasing.

Columbia, Mo., Nov. 18.—A primary by the Democratic voters probably will be held to decide the postmastership here, as there are so many in the race for the job. At present there are about 15 candidates for the position, with new applicants turning up each day. The number is expected to increase to 20 or more by the end of the week.

The postmastership here pays $3,100 a year. It is considered to be one of the best political plums in this part of the state. Now that it is running close, everyone is trying for it.

The last time a Democrat postmaster, R. J. Bonchelle, was appointed the contestants for the best "spoils" position here were so many that a perfential primary election had to be called to "weed out" the many contestants. That appears to be the court of last resort here in Columbia. This time the idea of the primary is supported by most of the candidates. That probably will be done unless no particular candidate for the position is preferred by the congressman from the district.

The men who are expected to be applicants for the position are F. C. Bradford, P. S. Quinn, T. W. Whittle, F. W. Hubbell, Dr. M. D. Lewis, James H. Guitar, E. W. Maxwell, E. W. Crouch, L. T. Searcy, A. S. Prather, J. B. Mundy, editor of the Columbia Statesman, and Ben M. Anderson, ex-state senator.

HUSBAND ASSISTED IN ATTACK

Woman, Victim of Assault by 13 Men Near Annapolis, Mo., Blames Mate.

Poplar Bluff, Mo., Nov. 18.—Mrs. Lillie C. Mullane, who corroborated the allegation made by her husband, Thomas Mullane, that she was attacked and kept prisoner for one day by 13 men near Annapolis, Mo., October 18, has just made a confession in writing to Prosecuting Attorney Almoning, in which she alleged that her husband virtually compelled her to submit to her assailants.

Mullane is in jail here on a charge of disturbing the peace which was brought to hold him as a witness at the trial of the 13 men at Ironton. He denied his wife's written confession and said that agents of the 13 men had induced her to make the confession.

Mrs. Mullane who is 19 years old was married to Mullane December 6, 1911 in Caroline county, Virginia. They lived for a time at Fredericksburg, Va.

IOLA BANDITS HELD BY A. H. T. A.

Posse Holds Motor Raiders for Horse Stealing and Refuse to Give Up Prisoners.

Iola, Kan., Nov. 18.—Members of the Anti-Horse Thief association are holding the two motor raiders they captured in the Thayer jail. The A. H. T. A. posse refused to give the prisoners into the custody of Allen county officers who want them on charges of highway robbery. The charge in Thayer is horsestealing.

The men in jail give their names as Jimmie Wilson and Bert Young and say they are from Kansas City. Wilson was shot through the right hand.

Officers here are certain that the Thayer prisoners are the Van Bibber brothers of Kansas City. Bessie Van Bibber told the officers here that the leader of the gang was W. J. Van Bibber and the man who says he is Bert Young tallies to detail with the description of Bert Van Bibber.

Reward for Kidnaper.

Macon, Nov. 18.—Elijah Mayfield of this city is offering a reward of $100 for the arrest of the persons who were concerned in the abduction of his little daughter from the family home in this city, November 12. Officers who went to Moberly in search of the child returned without her. Cordelia Mayfield, the divorced wife of Mayfield, was driven to Macon in a motor car but cannot now be found.

Jamaica in Storm's Grip.

Kingston, Jamaica, Nov. 18.—The storm which struck a section of Jamaica continued without abatement all day, and meager reports indicate that great damage has been done. Banana planters seem to be the heaviest losers, although railway and telegraph companies also have sustained great losses. Telegraph and railroad communications generally are demoralized.

Another Contest in Kansas.

Iola, Kan., Nov. 18.—R. E. Cullison, Republican nominee for county attorney, defeated at the election by Frank Forrest, Democrat, by 27 votes announced his decision to file contest proceedings immediately. This contest will affect the gubernatorial race as well as the office of county attorney.

To Electrify D. & R. G.

Denver, Nov. 18.—The electrification of the Denver & Rio Grande system will be begun immediately, according to an announcement by Vice-President E. L. Brown of that system. This will make the Rio Grande the first road through the mountains to be operated electrically.

An Extraordinary Demand Followed the Announcement of This Extraordinary Value

WE predicted an avalanche of orders. We knew the minute this model was offered it would sweep the country. We knew nothing on earth could stop the demand for it. All we had to do was to acquaint the public with the facts. During the last sixty days we have shipped seventy-five hundred of these 1913 cars and still we are way behind our immediate shipping orders. This extraordinary pressure just naturally followed the announcement of this extraordinary value.

¶ Any one article that continues, from year to year, to beat, baffle and dominate, other similar articles, must be the acknowledged leader. This is an established fact in commercial circles. That which is best must lead. The Overland is today the most prominent automobile, of its type, produced.

¶ Automobile values must be looked at from several different angles. You must consider not only the price, *but what that price buys you.* You must take into consideration the power, the strength, the beauty, the construction, the size, the appearance and the equipment of the car. You must judge a car by the material in it; the workmanship on it; the methods employed to produce it; and, last but not least, the facilities behind the production methods. Couple these facts with the price tag and you get the value.

¶ Examine each one of these fundamentals in this Overland at $985 and you find a car that is identical with the average $1,200 car. Go further and you find high-grade construction and painstaking care in finish that equal the production methods employed in the making of any $5,000 car you know of.

¶ This car has the power of a $1,200 car; it has the strength of a $1,200 car; it has the size of a $1,200 car; it has the seating capacity of a $1,200 car; it has the wheel base of a $1,200 car; it has the chassis construction of a $1,200 car; it has the comfort of a $1,200 car; it has the beauty and finish of a $1,200 car.

¶ Take the equipment item alone. It has a Warner speedometer—the best made; it has a fine mohair top and boot; it has a clear vision wind shield; it has a self-starter and a Prestolite tank—every practical accessory made for an automobile. And all for the one price—$985. There are no "extras."

¶ Then there are those important construction features which are only found on the very high-priced cars. This model has a drop-forged I beam section front axle, fitted with the famous Timken bearings; a three-quarter floating rear axle fitted with Hyatt bearings; a selective transmission, with three speeds forward and reverse, fitted with annular bearings, and a cold rolled pressed steel frame. It has the center control. The brakes are unusually large for a car of this size and power, and are ample for cars of much greater weight. There are two sets of the drum type, internal expanding and external contracting. The extra large braking surface is indicated by their dimensions 13 inches by 2¼ inches. The springs are semi-elliptic front, three-quarter elliptic rear. Each spring has six leaves. Tires are 32x3½ Q. D.

¶ This model is superbly finished. The striking body is in dark Overland Blue. Battleship gray wheels harmonize perfectly with the rich dark body which is trimmed in black and nickel plate.

¶ We want to put it up to you squarely. We want to submit to your own judgment the following simple inquiry: Why pay more than our price, for a car of this size, strength and power? When cars that are selling for $1,200 give you no more practical value; give you no more power; no more comfort; no more ease; no more strength; no better looking car, why in the name of reason and economy should you pay the additional money?

¶ There are over 2,000 Overland dealers. Look up the one in your town and see this Model 69 at once.

¶ Step lively for an early delivery.

¶ Catalogue on request.

Negroes Hold a Fair.

A fair and farmers' institute, managed and conducted entirely by negroes was recently held at Bunceton, in Cooper county. This was the second meeting of the kind held by the association, and, like the first, was a decided success. The entries of farm and garden products and kitchen and pantry stores would have done credit to an ordinary county fair. Believing that the best opportunity for the negroes is in the country, the Missouri state board of agriculture sent to this meeting as a special lecturer and demonstrator, Henry Kirklin, a successful negro gardener from Columbia. The association has elected officers and will hold another fair and farmers' institute next year.

Testing Grain With Testing Kettle.

Inquiries have come to the Missouri state board of agriculture as to the proper method of testing grain with a testing kettle, such as is commonly used at elevators. The rule is as follows: "Place the kettle where it cannot be jarred or shaken. Pour from a scoop, bag or pan, held two inches from the top of the kettle, into the middle of the kettle at a moderate speed until running over. Strike off in a zigzag manner with the edge of the beam held horizontally."

Mrs. William Shelton of St. Joseph, who has been visiting her sister, Mrs. W. S. Trewet, for two weeks, returned home Monday morning.
